## THE TRUDEAU SANATORIUM

and

## THE EDWARD L. TRUDEAU FOUNDATION

The Trudeau Sanatorium was founded in 1884 by the late Dr. Edward L. Trudeau to help self-supporting people suffering from tuberculosis.

The institution was definitely intended for those who could pay only part of the cost. The deficit in maintenance is and always has been made up by annual gifts from the public and the income from endowment funds. The charges to patients average three-quarters of the cost, but from fifteen to twenty per cent. receive further assistance from the Free Bed Funds. Additional endowment for the general maintenance and for the Free Bed Funds is greatly needed, and legacies are desired to strengthen the now enlarged institution.

The following brief summary sets forth the objects and departments of the institution as now carried on:

1. *The Trudeau Sanatorium* is for the treatment of favorable types of pulmonary tuberculosis and for patients of limited means. The full capacity is 185 beds.

2. *The D. Ogden Mills Training School for Nurses*, established in 1912, is for the training of young women who have arrested tuberculosis as well as qualified healthy women who desire special training.

3. *The Edward L. Trudeau Foundation* is an endowment fund in memory of Dr. Trudeau, established in 1916, for the support of research and teaching in tuberculosis. The fund is devoted to the following purposes:

a. *The Trudeau School of Tuberculosis* for the instruction of physicians, gives a four and six weeks' post-graduate course covering the modern diagnosis and treatment of tuberculosis.

b. A system of *Fellowships* for study and research in the sanatorium and laboratories, which provide support for young physicians and scientists while undergoing treatment.

c. *The Research and Clinical Laboratory*, located at the sanatorium, containing facilities for the study of bacteriology, chemistry and pathology. It includes a large medical library.

d. A department for *Statistics*, and for recording annual reports of patients.

e. *The Saranac Laboratory for the Study of Tuberculosis*, located in the village of Saranac Lake, which was formerly the private research laboratory of Dr. Trudeau, and is now the headquarters of the Trudeau School and of pathological study.

Annexed to the Saranac Laboratory is the John Black Room and Medical Library, which serves the Trudeau School and Fellows as well as the village physicians and where lectures are given.

## FOREWORD — 1933

The Board of Trustees presents herewith to the public and to its friends and supporters the forty-ninth annual report of the Trudeau Sanatorium.

In many ways this has been a difficult year. The income of the Sanatorium has been materially reduced, both from investments and from contributions. The census of patients has also diminished because the general economic situation has affected the ability of many suitable patients to avail themselves of the benefits of the institution even at the low rates of board at which they are offered. In spite of generous use of the Free Bed Fund at our disposal it has been necessary to allow many patients to go home before they had completed their course of treatment because of their inability to pay and the exhaustion of our available funds.

As a consequence for a part of the year some of our cottages have been closed for lack of patients, an entirely new situation in the history of the institution.

In spite of these difficulties, the high standards of care have not been lowered and we have still been able to balance our budget through the self-sacrificing co-operation of the entire staff under the leadership of Dr. Heise and through the efficient economical management of Mr. Armstrong.

The Trustees have greatly regretted the necessary reduction in compensation to the members of the staff previously under rather than over paid, but deeply appreciate their spirit of loyal self sacrifice without which the proper conduct of the institution would have been impossible.

We appeal more earnestly than ever before for the continued and increased support of the friends of the institution, both for our general fund and especially for the Free Bed Fund, in order that we may be able to carry on with undiminished efficiency the work entrusted to us by Dr. Trudeau and those associated with him in every establishment of this great institution.

The scientific and laboratory part of our work has fared better financially in comparison with the general work. This is due to the recognition of the practical value of our scientific researches under the leadership of Dr. Gardner and of Dr. Petroff. We are greatly indebted to the generous appropriations which have been made to our laboratories by the industrial organizations which have recognized the value of these researches in the solution of their problems and have at the same time enabled our laboratories to develop their work along both scientific and practical lines.

We rejoice in the return of Dr. Baldwin to complete health and vigor and acknowledge the great debt which we owe him for his steadfast devotion to the interests of the institution and his wise guidance of all of its activities.

Trudeau has carried on true to the spirit of its founder and we, the Trustees, charged for the time being with the responsibility of administering the great work which he initiated, look with confidence to all friends of the institution to rally to our support in these difficult days so that the standard and ideals which he set may not be lowered or impaired.

JAMES ALEXANDER MILLER, *President*

ANNUAL REPORT OF THE CHAIRMAN OF THE  
EXECUTIVE COMMITTEE AND VICE-PRESIDENT  
OF THE TRUDEAU SANATORIUM

FOR THE YEAR ENDING SEPTEMBER 30, 1933

The forty-ninth year of the Trudeau Sanatorium will be remembered as a period of anxiety by the staff and especially by many patients whose incomes were often cut off or reduced. To meet the required standards and maintain the food and service as usual, it was found necessary to reduce salaries ten per cent. beginning December 1, 1932, of all employees receiving \$50 a month or over. The saving amounts to \$10,000 a year, about balancing the loss of donations formerly received. In the research laboratories larger salary cuts were necessary. Good co-operation was evinced by all as it was realized that income from endowment and donations was greatly reduced.

Four cottages were closed during the winter, thereby saving fuel and service. The number of treated patients decreased, especially during the winter, and there was no waiting list until the late spring. Corresponding conditions existed in all institutions excepting state and county sanatoria which are generally free. Undoubtedly many patients remained home for lack of funds for private care in health resorts.

Surprisingly, too, there has been a steady decrease in the mortality from tuberculosis despite the malnutrition due to the depression. It is yet too soon to declare that there will be no increase of the disease in consequence of deprivations as in past experiences. However this may be, there are numerous patients who cannot at present receive treatment at Trudeau because of lack of funds. Notices were sent to physicians who usually send patients but no increase in applications resulted.

The death of Mr. Walter Graeme Ladd reminds us of another friend who has passed on. Together with Mrs. Ladd he maintained an unfailing interest in the institution for many years.

*Maintenance Cost:* The *per capita* weekly cost was \$23.56, nineteen cents higher than in 1932. As food costs averaged nineteen cents per meal, two cents less than last year, the increase in total *per capita* cost is attributable to the drop in the number of patients. One per cent. of the charges to patients was unpaid, not an excessive amount considering the difficult times.

*Employed Patients:* Eighty-eight patients and ex-patients earned \$35,000 in addition to their board and room. On the Trudeau Foundation funds three fellowships were granted and twenty-one other tuberculous workers were supported. Four patients assisted in part time nursing.

*Donations and Legacies:* The cash donations were \$11,620 for general purposes and \$2,937 for special objects. This was a decrease of about \$5,000 from last year.

Legacies paid were as follows:

Estate of Helen L. Fairchild (final installment) \$2,038.45

Estate of Lomax Littlejohn ----- 5,000.00

These have been retained in the Special Reserve Fund.

*Free Bed Fund:* There was a total of \$4,844.71 in gifts to this fund, \$1,000 less than in 1932. With the interest on endowment, \$3,415.81, a total of \$8,260.52 was available, all of which was applied to thirty-four beneficiaries. There was also a \$6,332.64 overdraft, which has been met by an appropriation from the General Fund. Consequently, the sum of \$14,593.16 was devoted to the needy patients.

*Construction and Improvements:* Practically nothing but necessary repairs to roofs and plumbing was done during the year. The only new work was the completion of the clinical laboratory rooms in the medical pavilion. Replacement in equipment will soon be needed in some cottages, as well as new laundry machinery. The old x-ray generator was exchanged for a new one on very good terms, and the laboratory now has modern apparatus throughout.

*Medical Report:* The following figures indicate a still further decrease in the number of patients treated compared with the maximum in 1930:

Total number treated was ----- 458  
 The number remaining Sept. 30, 1933, was ---- 183  
 The number discharged was ----- 275  
 Those remaining an average of eight months were 200

<i>Classification</i>	<i>Cases</i>	<i>Per Cent.</i>
Not classified -----	3	1.18
Non-tuberculous -----	7	2.75
Suspected tuberculosis -----	2	.78
Arrested -----	11	4.31
Apparently arrested -----	24	9.41
Quiescent -----	117	45.88
Improved -----	64	25.01
Unimproved -----	20	7.84
Died -----	7	2.75
	<hr/> 255	100.00
Convalescent patients previously reported -----	20	
	<hr/> 275	
The average daily census was -----	188	

The preponderance of progressive or active cases of tuberculosis is manifested by the report, which is similar to that of last year. The experience of other institutions coincides with ours, in that patients wait longer before seeking treatment.

*Medical Staff:* The Medical Director, Dr. Heise, now has besides Dr. Steidl the first assistant, Dr. Spencer Schwartz who replaced Dr. Strieder and Dr. David Paine as interns. Drs. Whitehead and Howlett continue while Mr. Winfield Kelly, a medical student, has made himself very useful in laboratory work. The village

surgeons, Drs. Welles, Jameson and Woodruff, have given valuable services as well as the regular visiting staff. Appreciation is also expressed to Dr. V. S. Worden and Dr. Camilla M. Anderson for psychiatric examinations, to Dr. G. E. Wilson for throat, and Dr. D. M. Brumfiel for examinations in cases of heart complications.

*Dental Department:* The continued service of Dr. and Mrs. Carr deserves special commendation for their skill and faithful attention. Three hundred and forty-eight complete examinations were made and 1912 defects were treated.

*D. Ogden Mills School of Nursing:* Eighteen young women were graduated from our school last year and thirteen pupils admitted. There are now thirty-two in the sanatorium and ten affiliating at New York Hospital and the New Haven Hospital.

The over-supply of nurses has not yet lessened the applications for our school, yet further affiliation at New Haven has been cancelled by the Yale School, partly on account of the increased restrictions made necessary there. Our previous experiences with other hospitals have been unsatisfactory; hence it appears to the staff unwise to continue the undergraduate school and better for the future to replace it with courses in tuberculosis nursing offered to graduate nurses and student nurses from other schools. A beginning could be made in September, 1934, with a three month's course followed by a second in the winter of 1935. It is not believed that tuition can be charged but if extra expense is involved such must be met by special contributions. This plan has been approved by the State Board of Nursing Examiners.

*The Alumnae:* One hundred and thirty-three nurses have graduated from the school since its beginning in 1912. A few have reported some difficulty in finding employment during the past year. However, fifty have been busy in tuberculosis or public health nursing and twenty-four have done general duty.

*X-ray Department:* This laboratory has had a busy year, although the number of patients, chiefly outside the sanatorium, has lessened about seventeen per cent. There were 18,000 films used and 4,980 chest exposures made, as well as the seventh annual school examin-

ation which included 1,600 children in the village. This study will probably be carried on for two years more before a final report can be made. The Metropolitan Life Insurance Company has made another donation of \$500 toward this work.

The services of the x-ray department have already been an important part of the study of silicosis at the Saranac Laboratory. Mr. Robert Downs, a technical assistant to Mr. Sampson, has spent several months in the mining region of Wisconsin. Between 3,000 and 4,000 films of miners have already been compared with physical examinations. The plans for field x-ray service, elsewhere mentioned, in Northern Michigan, will require two additional technicians who are already trained.

A recent improvement in the equipment was the purchase of a new x-ray generator adaptable for higher power and for research.

Three publications from the laboratory have appeared during the year: "Intestinal Tuberculosis" by Dr. Lawrason Brown and Mr. Homer L. Sampson; "The Correlation of Clinical and Roentgenological Observations in Pulmonary Tuberculosis" by Mr. Sampson and Dr. Brown; and "The Roentgenogram in So-called Acute Silicosis" by Mr. Sampson and Dr. Leroy U. Gardner.

*Scholfeld Memorial Workshop:* The teaching staff consisting of Miss Alma Pierce, Miss Elizabeth Schiefer and Miss Neilson Knox have given instruction in ten crafts to 356 persons during the past year. A new feature was introduced in the form of modelling classes by Mr. Anthony DiBona, a sculptor, and has aroused much interest. The following have also contributed valuable service and materials: the Misses Marie MacDonald, Millicent Pierce and F. Ginsberg and Mr. V. Laurance, Mr. W. Oliver and Mr. A. Van Buskirk. Mrs. Meredith Hare has continued her generous support.

*Chapel Services and Entertainments:* The same village clergymen have continued services as in previous years. The seventeenth memorial service for Dr. Trudeau was addressed by the Rev. Hiram W. Lyon. The sanatorium has been favored by the parish visits of all the ministers in the village, as well as by others, including Mrs. Samuel Kelly who has led in the singing.

But few formal entertainments were given, although the annual concerts by the Lake Placid Club Boston Symphony Ensemble were presented as usual, and in addition Miss Carmela Ippolito gave an evening's violin entertainment with Mr. Carl Lampson as accompanist. Appreciation is always expressed by patients for these unusual treats and there are many who understand good music. The bed patients were able to hear the concerts by radio. The Camp Riverdale Glee Club again gave an excellent performance.

*The Medical Library:* The praiseworthy services of Miss Hort and her assistants, Miss Marjory G. Smith and Miss Mary E. Stanwood, deserve much commendation in developing the library to its high state of usefulness. There are now 5,398 bound volumes available, additions being made by gifts from physicians and other libraries. Acknowledgements are due for these, as well as to the Misses Stanwood and Mary White for volunteer assistance.

*Mellon Library:* There are now 5,259 books in this library and there were over 8,000 volumes circulated during the year. This is a considerable increase over the previous year, and much reading is done by the bed patients. Miss Millicent Pierce has done much to interest the patients. Donations of books are to be acknowledged from Mrs. Lawrason Brown, Mr. and Mrs. H. S. Eckart, Mrs. B. F. Royer, the Misses Kornwelder, Carolo Goerner and Lillian Walter, Mr. Van Gelder, besides many patients. Miss Annie B. Jennings and Miss I. Hopkins have generously continued a number of periodical subscriptions.

*Statistical Department:* Owing to a severe illness, Mr. Hennigar was obliged to give up for some time but the work was carried on faithfully by Miss Julia Mollahan.

*Research and Clinical Laboratory:* The practical application of results obtained in research laboratories often appears far away in the minds of the workers and laity. It is therefore gratifying to announce that a chemical combination originated by Dr. Petroff and Dr. Gump is actually to be manufactured for use as a germicide. Satisfactory arrangements have been made with manufacturing chemists to contribute for two years to continue this research. We

have good reason to believe in the value of the discovery in combatting infections in the pleura as well as other parts of the body.

Meanwhile Dr. Petroff is continuing the fundamental study of tubercle bacilli and their variations, which the Rockefeller Foundation is making possible.

Dr. William A. Winn left for further hospital service and Dr. William H. Oatway has taken his place as pathologist.

*The Saranac Laboratory:* The last twelve years' study of tuberculosis and silicosis have borne fruit in a very practical way. Many industries where dust is a serious hazard to health are awakening to the need of careful medical supervision and greater precautions. The Saranac Laboratory is now carrying on experimental study and field examinations of iron miners in Wisconsin and Michigan. The Trudeau X-ray Laboratory is represented in the field, where films are exposed and sent to Trudeau for interpretation. This consultation service has been growing in importance, and Dr. Gardner, Mr. Cummings and Mr. Sampson have been called away frequently. A group of mining companies have agreed to bear the expense of more intensive research for at least three years. As a consequence additions to the staff will be required as well as more room in the laboratory. Dr. Gardner has recently been authorized by Mr. and Mrs. Frank Black of Mansfield, Ohio, to build another story over the John Black Room, for which they generously offer to pay.

These new plans come at a time when other sources of support are failing, and we are especially indebted to Dr. Gardner and Mr. Cummings for their successful negotiations.

During the past year the plant of the United States Gypsum Company at Batavia, New York, was surveyed and the dust hazard investigated. Experiments are still in progress with this mineral. By reducing salaries, contributions received from the Milbank Memorial Fund, Metropolitan Life Insurance Company, Saranac Lake Academy of Medicine and those received from individuals, have been sufficient to carry the work along thus far. The prospects for the coming year are for better support.

*Trudeau School of Tuberculosis — Nineteenth Session:* The class enrolled this year numbered twenty-four students actually in

attendance. There were more than the usual number of visiting physicians, mostly patients from neighboring institutions. Six students received scholarship assistance, all but one of them ex-tuberculosis patients. Some changes were made in the teaching methods which were thought desirable, and a new feature was added. Through the interest and kindness of Dr. James Alex. Miller a supplementary two weeks' course was provided at Bellevue Hospital in New York City. This was made to follow the first four weeks of our usual schedule, and is valuable because of the abundant opportunity for study of non-tuberculosis lung diseases. It will be repeated in 1934. The following evening lectures were presented during the last session: "The History of Tuberculosis," in three lectures, Dr. Lawrason Brown, Saranac Lake, N.Y.; "Tuberculosis of the Skin," Dr. Anthony Cipollaro, Attending Dermatologist and Instructor in Dermatology, New York Post-Graduate Medical School and Hospital, New York City; "The Physiological Readjustments in Pneumothorax," Dr. Ronald V. Christie, University Clinics, Royal Victoria Hospital, Montreal, Canada; "Rest and Exercise in the Treatment of Tuberculosis," Dr. Hugh M. Kinghorn, Saranac Lake, N. Y.

The twentieth session of the school will open at Saranac Lake on May 21st, 1934.

*Trudeau Foundation:* Three fellowships were awarded to patients in the sanatorium, who were chiefly engaged in clinical work. Seven summer students were also maintained, three of whom had been patients. An average of ten physicians are constantly under treatment and most of them take advantage of the staff conferences. The only addition to endowment was the gift of securities valued at \$1,200, by Mr. Frank B. Black, for the Saranac Laboratory.

(Signed) EDWARD R. BALDWIN, M.D.

*Vice-president and Chairman*

## NECROLOGY

MISS EDITH V. EVANS, former director of the Workshop,  
died in New York November 24, 1932.

MR. WALTER GRAEME LADD, contributor for many years,  
died May 21, 1933.

MR. M. J. POMEROY, Pharmacist at Trudeau for twenty  
years, died September 21, 1933.

TREASURER'S REPORT OF THE TRUDEAU SANATORIUM  
*Surplus and Deficit Account*

For the Year Ended September 30, 1933

Grand Total Current Expenses	.	.	.	.	.	321,125.89	Grand Total Current Revenue	.	.	.	.	.	.	333,310.69

*To the Trustees of Trudeau Sanatorium, Trudeau, N.Y.*

We have examined the cash records of the Chairman of the Executive Committee, Assistant Treasurer, Trustee and the Superintendent of the Trudeau Sanatorium for the year ended September 30, 1933, and hereby report that the attached Summary of Receipts and Disbursements has been prepared therefrom and, in our opinion, sets forth the transactions recorded therein. The receipts do not include gifts of \$700.00 (\$350.00 in 1932 and \$350.00 in 1933) made in Canadian funds and held in trust in the Bank of Montreal, nor a pledge of \$1,000.00 made in 1932 also in Canadian funds held in Canada awaiting conversion at favorable exchange rates. (These amounts were converted at par after September 30, 1933 and transferred, together with interest amounting to \$15.47, to the Trudeau Sanatorium\* on November 14 and 15, 1933, and will be included in the receipts of the year ending September 30, 1934).

PEAT, MARWICK, MITCHELL & Co.

New York, N.Y., December 4, 1933.

## MEMORIAL AND ENDOWED FREE BEDS

---

The sum of five hundred dollars (\$500.00) will establish a Free Bed for any period of six months' treatment, as a memorial if desired; or

An Endowed Free Bed may be established in perpetuity to be occupied for such number of hospital days as shall be covered by the income from the endowment given for the purpose.

Such gifts to be named by the donor, and the applicants for the privileges to be subject to the same requirements in the entrance examination, rates for board, and all other rules and regulations existing at the time for patients of the Sanatorium.

### FORM OF BEQUEST

I give and bequeath to "THE TRUDEAU SANATORIUM" of Essex County, State of New York, incorporated under the laws of the said State of New York the 4th day of March, 1889, the sum of ----- dollars: To have and possess the same unto the said "TRUDEAU SANATORIUM," its successors or assigns, to the uses, disposition and benefits thereof forever.

NOTE: If the bequest is intended for the research and teaching departments the form should be amended by inserting "The Edward L. Trudeau Foundation of the" before the words "Trudeau Sanatorium" where they occur in the above.

### FORM OF DEVISE

I give and devise to "THE TRUDEAU SANATORIUM" of Essex County, State of New York, incorporated under the laws of the said State of New York the 4th day of March, 1889, all that certain piece or parcel of land (with the buildings thereon erected), situated lying and being, etc. (here describe property): To have and to hold the same unto the said "TRUDEAU SANATORIUM," its successors or assigns, to its own use and behoof in fee simple absolute.
